There are 3 different length 6000 series cars; 7" 10 " and 13 ". The BT balancer trolleys are a 10 " car. All side plates use common wheels. Every car has load wheels and side rollers. Some cars also come with anti-kick-up rollers. Cars use either all "Urethane"(plastic) or steel wheels. If most all your wheels need replacement, it can be nearly just as much cost to replace the whole car with new.
